### About us

INGgreen GmbH addresses the challenges of today's automotive and tech industry by providing services in test engineering, endurance testing, application development and process automation. Through our work, we help our customers to improve the usability and safety of automated driving systems.

Join our team and help drive the future of self-driving technology forward.

### The role

If you're passionate about cars and love driving, this role offers you an opportunity to shape the future of road safety. While developing new skills in automated driving technology, you will provide real world feedback and play a vital role in the constantly developing driving field. As a Vehicle Safety Operator you will be responsible for running on road experiments and reporting back to our research and development teams.

### Key responsibilities:

- Be a part of our world-class, diverse operations team to test our vehicles all over Germany.
- Monitor our automated driving system and respond to all hazards to guarantee safe testing at all times.
- Evaluate our automated driving technology during tests, and provide expert feedback to our research teams and engineers.
- Provide real-world driving examples to train our automated driving system before you test on public roads.
- Support our safety and engineer teams by maintaining our high safety standards, and reporting safety and vehicle issues.

### About you

In order to set you up for success as a Vehicle Safety Operator at INGgreen GmbH, we're looking for the following skills and experience.

#### Essential

- Full clean German driving licence.
- At least 8 years' driving experience mainly in Germany.
- No blameworthy insurance claims in the past three years.

- Strong driving skills and knowledge and willingness to continue developing.
- All applications are required to disclose any second job as part of the application process.
- All applicants will be subject to a health check (before/after) the offer and should disclose any conditions that may affect their ability to safely operate a vehicle.
- Strong communication skills and a clear ability to empathise with others.
- Happy to work alone and equally happy working within a team.
- Adaptable, flexible and passionate about solving problems with innovative solutions.
- Employment is contingent upon passing pre-employment and ongoing drug and alcohol testing, in accordance with our Drugs & Alcohol policy. You will be tested during your onsite interview.
- Proficient in Microsoft Office suite, or equivalent (Google Suite).
- Basic Navigation: Understanding how to navigate the home screen, open and close apps, and switch between apps.
- Touchscreen Gestures: Familiarity with common touchscreen gestures like tap, swipe, pinch, and zoom.
- Typing and Text Editing: Using the on-screen keyboard for typing, selecting text, and using copy, paste, and other text-editing functions.
- Connecting to Wi-Fi and Managing Settings: Knowing how to connect to Wi-Fi networks and manage settings like brightness, volume, and Bluetooth.
- Using Basic Apps: Proficiency in using basic apps like Safari for web browsing, Mail for email, Photos for managing pictures, and Calendar for scheduling.
- Troubleshooting Basic Issues: Handling common problems like app crashes, restarting the device, or resetting network settings.

#### Desirable

- You have an advanced driving background (i.e. Authorized Driving Instructor, Emergency Response Advanced Driver, or similar driving qualifications).
- You have extensive knowledge of Stuttgart and surrounding areas.

#### Shift Pattern - Rota issued 4 weeks in advance.

40 hours per week (must be able to work weekends)

- 06:30-15:30
- 14:30-23:30

This role is based onsite at our office in Stuttgart.

#### What we bring on the road for you

- INGgreen GmbH works on projects for well-known customers in the automotive and tech industry. Together we drive forward future-oriented topics such as autonomous driving.
- 30 vacation days per year.
- We are a value led organisation.
- We support your professional development and provide appropriate qualifications and further training measures.
- We offer you a fair salary and a company pension plan.
- You gain access to employee benefits through the corporate benefits program.

If you are passionate about self-driving cars and think you have what it takes to make a positive impact on the world, we encourage you to apply. →

Make sure to include all relevant documents that highlight your qualifications and experience. After a positive evaluation of your application, you will be invited to take part in a multi-phase recruitment process. We look forward to receiving your application!
